

RE: Equity and Environmental Justice Written Comments for the New England Energy Vision

The way ISO-NE controls our regional electricity market keeps us hooked on polluting fossil fuels, and the result is that Black, Indigenous, communities of color and poor communities bear an unjust burden of fossil fuel pollution. This is thwarting state efforts to reach our mandated clean energy goals.

We need an energy grid that works for all of us and moves us to the clean, local, renewable energy system that we need.

We're calling for ISO-NE to work with states and communities to build a just and democratic energy grid that:

1. Stops propping up dirty energy infrastructure in New England;
2. Stops importing fossil fuels from Indigenous communities and fracking communities;
3. Transitions to 100% renewable energy through electrification and expanding clean, local, safe renewable energy sources;
4. Encourages small-scale and decentralized energy production and storage;
5. Is governed transparently and democratically with community input on where our energy comes from and where it goes; and
6. Is affordable and accessible for all.

Signed: 600+ concerned New England residents
(Attached)

Fix the Grid: NO to Fossil Fuels, YES to a Just & Democratic Energy Grid

TO: ISO-New England
claire.sickinger@ct.gov

RE: Equity and Environmental Justice Written Comments for the New England Energy Vision

The way ISO-NE controls our regional electricity market keeps us hooked on polluting fossil fuels, and the result is that Black, Indigenous, communities of color and poor communities bear an unjust burden of fossil fuel pollution. This is thwarting state efforts to reach our mandated clean energy goals.

We need an energy grid that works for all of us and moves us to the clean, local, renewable energy system that we need.

We're calling for ISO-NE to work with states and communities to build a just and democratic energy grid that:

1. Stops propping up dirty energy infrastructure in New England;
2. Stops importing fossil fuels from Indigenous communities and fracking communities;
3. Transitions to 100% renewable energy through electrification and expanding clean, local, safe renewable energy sources;
4. Encourages small-scale and decentralized energy production and storage;
5. Is governed transparently and democratically with community input on where our energy comes from and where it goes; and
6. Is affordable and accessible for all.
